Percentage of Course grade: 25%.

Examinable Material: Everything covered in the book (through Section 3.2) and slides (remainder of material), plus Exercise Sets 1-6 (including model answers). Post Mid-term material will be emphasized, as will material featured on the exercise sets and model answers.

Format: closed-book, closed-notes, closed-computers.

Proofs: I will ask you to do one or two fairly easy proofs on the exam. You should make your proof(s) as complete and detailed as possible.

Final Examination (Cont.)

Old Exam: When studying, make use of the old final exam (and model answers) that is on the WWW. Try taking this exam under exam conditions. Some of the questions or parts of questions on the actual exam will be of similar types to those that appeared on the old exam. But you should also be prepared for some questions or parts of questions of different types.
